UNFAITHFUL ANGELS: HOW SOCIAL WORK HAS ABANDONED ITS MISSION

Harry Spect & Mark Courtney

Free Press, New York, 1994, 209 pp. + XII, index

The purpose of this book is to analyze the current state of social work and to propose solutions for its revitalization. The authors argue that social work has been abandoned by society, and that it is time to reclaim its mission.

The book is divided into several parts, each focusing on a different aspect of social work. The first part examines the historical roots of social work, while the second part explores the current state of the profession. The third part proposes new models for social work practice, and the fourth part discusses the implementation of these models.

The authors argue that social work has lost its relevance to society, and that it is time for a new paradigm shift. They propose a model of social work that is more focused on empowerment and self-determination of clients. This model is based on a deep understanding of the social and political context of clients' lives.

The book is a must-read for anyone interested in the future of social work, and for those who want to see a more effective and responsive social work profession.
